

BabyKangaroo

Whitepaper

Introduction

BabyKangaroo is a unique token inspired by the Kangaroo and the Boxing sport. We usually think of the Kangaroo as a hilarious creature with a fighting style similar to the Boxing style. That is where our ideas come from; we want to create a one-of-a-kind meme token that will thrive in the hearts of animal and boxing lovers.

By combining the Kangaroo with boxing and transforming it into the Kangaroo boxer, the BabyKangaroo meme will earn boxing fans' love. Also, the BabyKangaroo **NFT Collections** which inspired by the famous world-class boxers. BabyKangaroo's NFT characters are promising to be a super-duper piece of art that would influence BabyKangaroo to become the new trending, **number one viral cryptocurrency!**

Our Visions

To create a community-influenced project that reward members just for holding tokens!

- 1 BabyKangaroo aims to build an ecosystem that is one-hundred percent community-driven, providing our investors with an enjoyable playground. To connect and earn enormous rewards for their investments. And most importantly, to drive the project forward in competing with other cryptocurrencies.
- 2 Also, BabyKangaroo is a deflationary yield and liquidity generation protocol that aims to reward its holders while directly increasing liquidity. **This mechanism is funding by the 2% to 3% tax taken from every transaction.** Consequently, the protocol has a permanently increasing-price floor. All investors earn additional BabyKangaroo tokens for holding, distributed proportionally across existing holders.

Our Team

We are a bunch of tech guys with our specialty in Blockchain technology. We share the same visions and enthusiasms for thriving in the crypto-world. We promise to bring you the best community-driven project built on the BSC network.

Sercurity

Security first, as always.

1

Contract audit and KYC: To earn our beloved investors' trust and increase contract security, and for the sake of transparency. We invest a significant amount of money in the exclusive audit service provided by SolidProof, a well-known contract auditor company. Also, we are KYC by SolidProof as well. That is why our investors should be confident to believe that we are doing our best to secure their assets.

2

Locked liquidity: We have UniCrypt, a reliable third party, as an intermediary to ensure that the initial liquidity will be locked after listing. So, holders can assure that there will always be tokens available to trade.

TOKENOMICS

TOTAL SUPPLY: 100.000.000.000

PRESALE:
0,645%

FEE:
0,022%

BURNT: 99%

LIQUIDITY:
0,32%

Taxes

Tax buy

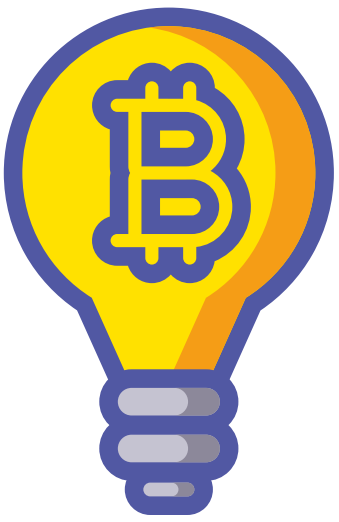

2% will be added to
Liquidity pool

Tax sell

2% will be for
Marketing
1% will be burnt

Why we collect taxes ?

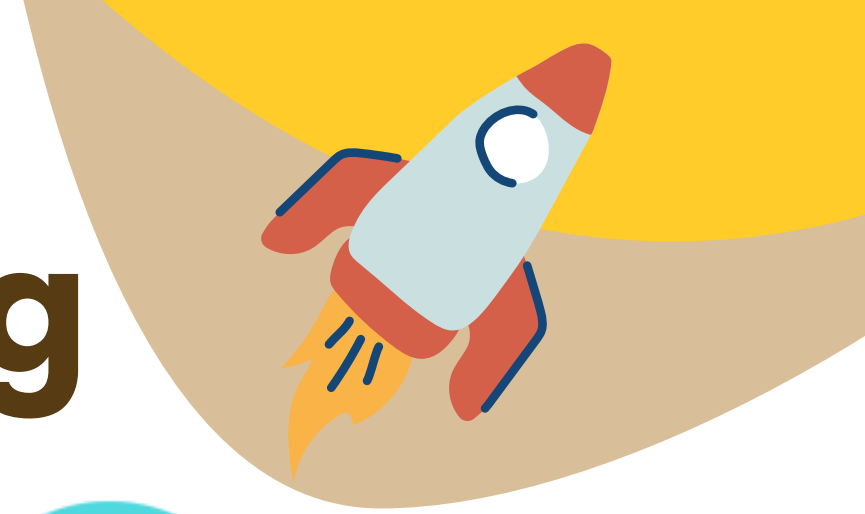

2% tax buy added to Liquidity Pool will increase liquidity for our holders. And since liquidity are locked, holders can assure that there will always have token available to trade.

**2% tax sell for Marketing will exponentially increase the token value since the fund for Marketing increase.
1% tax sell for burning will exceedingly create value for current holders.**

Two phases of launching

UNICRYPT®
N E T W O R K

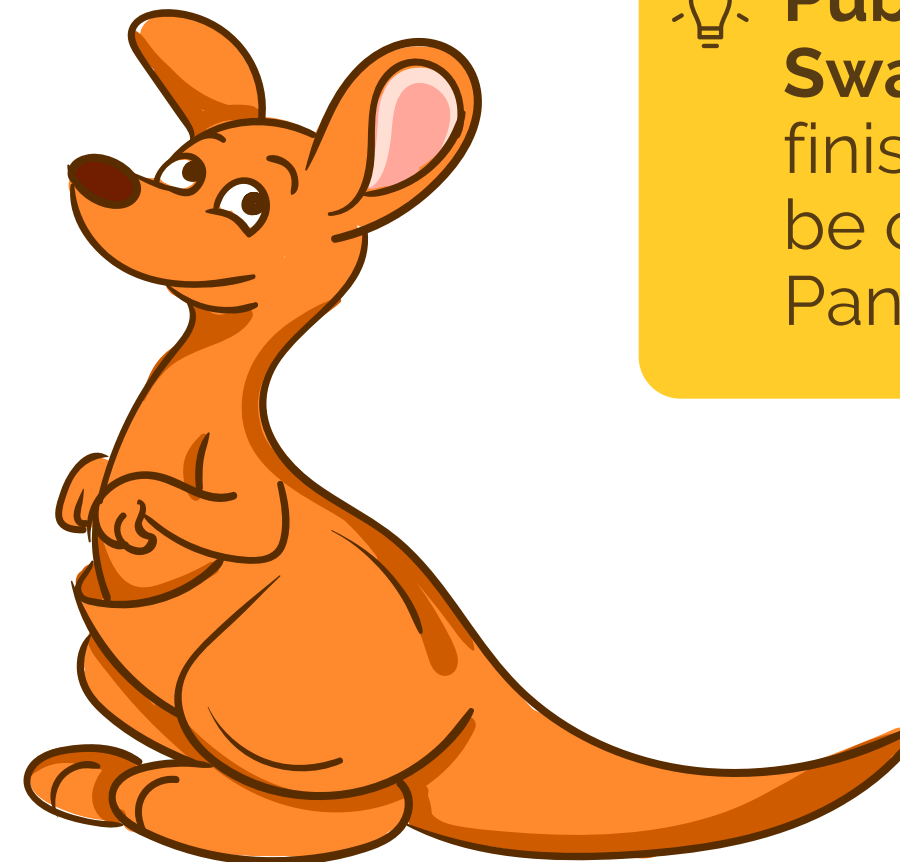

PancakeSwap

ILO on Unicrypt: We will organize a whitelist championship on Glean; contributors will earn the chance to win a whitelist spot randomly. Also, we will give whitelist spots to our partners as long as they corporate with us in contribution to BabyKangaroo development. By becoming whitelisted, they can participate in this phase and buy tokens at a discount, earning a more significant profit when BabyKangaroo is officially listed.

Public launch on Pancake Swap: After the ILO phase is finished, BabyKangaroo will be officially listed on PancakeSwap exchange.

Token Information

Network: **Binance Smart Chain (BEP-20)**

Contract: **0x13C01a22cA44A5D54D6Da0Ff1656d96B4Eg8f655**

Symbol: **KANGAROO**

Decimals: **18**

Roadmap

1

Stage 1:

- Graphic Design
- Website Design
- Community Build
- Marketing Pushing
- Contact with influencers
- BabyKangaroo Launch
- Burn 99% Token
- Audit + KYC

2

Stage 2:

- Whitelist championship
- Register on Coingekco, CMC
- Reach 6000 members on Telegram Community
- ILO launch
- Public listing on PCS
- Renounce Ownership
- Marketing and Promotion

3

Stage 3:

- NFT design
- NFT Launch
- NFT marketplace
- Ready for CEX listing
